**Sport Relief - Harnessing the power of sport to support some of the poorest and most disadvantaged people in the UK and around the world.**

Try for Change is an England Rugby programme which uses the power of rugby union to improve and support the lives of disadvantaged people in England and across the world.

We recognise the invaluable work of charities, clubs and individuals who use rugby as a force for good and are raising new revenues to grant out to projects using our sport for social change. These projects encapsulate rugby's core values of teamwork, respect, enjoyment, discipline and sportsmanship to tackle a number of

significant social challenges around education, social inclusion, unemployment, mental and physical wellbeing, personal development and community growth.

England Rugby is proud to partner with Sport Relief and together we have launched the Try for Change Fund. This is a fully managed fund by Comic Relief and our ambition is to raise £4 million over four years to support projects and programmes that use rugby for positive change here in England and across the world.
